Thursday and Friday, June 24th and 25th, 1915 --- 65 Per Cent. of Profits Goes to Patriotic Fund

The extraordinary measure of success which attended Gleichen's first Stampede last year has prompted the promoters to again put on another which will eclipse, from a spectacular stand point, the splendid blood-stirring display of 1914.

The gentlemen who have charge of the arrangements expect that from a financial stand point it will also be a much greater success as expressions of regret were heard on every hand from people who missed last year's show and who promised that they wouldn't miss another if Gleichen put it on.

It is hardly necessary now to refer to the very flattering comparisons made between the Gleichen Stampede and the Calgary and Winnipeg Stampedes. Enough said. This is going to be a better one.

In promoting a Stampede this year the promoters are not actuated by any motives of personal gain. It is their intention that should there be a profit sixty-five per cent shall be turned over to be distributed among the married soldiers and the widows and orphans of the soldiers.

Gleichen has done nobly during the past eight months in its contribution towards the Red Cross, the Belgians, many destitute in this district, Calgary and elsewhere. But the Patriotic Fund which is equally deserving of support has been neglected. While Gleichen has

## Queenstown Notes

During the last 6 weeks everybody here, the writer included, have been so busy putting in crops that there has been little or no time to look about for any news. Of course things have happened. There has been birth, death and other events, even a political meeting.

It is safe to say that never since this district was first settled has there been so many acres set out here as this year and never so well put in. The land is in a splendid shape to give the grain a good start as so much moisture was put into the ground after the snow storm last fall. So everything now looks well. But it looks as if the splendid May rains that fell several years ago, will fall again this year so we shall be dependent on showers. If we get a few good showers before its too late we will have a good crop this year with the amount of moisture already in the ground but otherwise we all know what will happen.

If there is still anybody living in this district who claims trees will not grow on the prairie let them come to Queenstown and be converted. I have around 4000 myself that seem to do pretty well and there are a few others who have fine groves. Mr. A. Bege has a fine grove, a little older than mine and while I hate to admit it they are finer trees than mine. Mr. Milo Monro lives right in the woods. Mrs. Smith, Joe McCabe, James Burt, P. Mills, P. Stump and others all have groves. There are

all east of the lake but there must be some on the other side too. I know that Wyn. Brown had a lot of trees set out even before the settlers came. Trees were also planted around the Queenstown School last year. We have a number of farmers out here, some of them well-to-do, with good buildings but the most powerful microscope would fail to locate a single tree or bush around a place there. But it is never too late to make a start.

If you want to see real apple blossoms on genuine apple trees come out to Queenstown. Blossoms are the nearest approach we have come yet to apples, but then we will never raise apples unless we get the blossoms first. Don't laugh—but if you live long enough, at some future agricultural Gleichen Exposition you will see a display of apples raised in Queenstown.

Did you eat rhubarb for your last Sunday dinner picked from your own plants? If not it's your own fault as you failed to plant some bulbs last year.

How about tulips in your garden this year? A bed or border of single or double, red, yellow or other colored tulips are very pleasing to look at the first week in May. If you have not tried it, expend a few cents for bulbs next fall and in a year from now you will think the money well spent.

But talk about currants, from the looks of things there will be no income current crop in Queenstown this year. How many currants can I tell you?

A fine new organ has been installed in the Pioneer School. The organ is a clonch that some of it will come from Queenstown.

One of the Plant boys was taken sick last week with diphtheria. A number of land sales have taken place lately. Jack Dietz, some time ago, purchased John Mason Queenstown School to hear Mr. Mavor explain his political principles soon to have been deeply impressed with the candidates sincerity and a large number of them have pledged him their wholehearted support. His appeal for improved conditions for the man on the land has won him a lot of friends. The farmers apparently believe that Mr. Mavor thoroughly understands their conditions and will make no effort to see that they are improved and fulfilled. Many have remarked favorably on the candidate's independence of thought and his absolute fairness in dealing with the various political subjects. Reports from townships south of Queenstown are also very favorable and it is said that the candidate will receive strong support from those districts.

A new addition has been built to the Queenstown School and other improvements done this spring.

Mr. L. Irvine from Washington who has been here putting in a crop on his farm is contemplating to move his family back next year.

Mrs. J. Butch has gone to Washington to try to regain her health. The farmers Union has just purchased a carload of good color points and a few are being hauled them put and building fences.

Geo. McComber is building a barn at his new home.

A fine new organ has been installed in the Pioneer School.

John S. Mavor, the government candidate for the Federal Riding of Bow River, returned Monday from a get-acquainted trip through the country immediately south of Gleichen. Those who attended the Queenstown School to hear Mr. Mavor explain his political principles soon to have been deeply impressed with the candidates sincerity and a large number of them have pledged him their wholehearted support. His appeal for improved conditions for the man on the land has won him a lot of friends. The farmers apparently believe that Mr. Mavor thoroughly understands their conditions and will make no effort to see that they are improved and fulfilled. Many have remarked favorably on the candidate's independence of thought and his absolute fairness in dealing with the various political subjects. ## Blind Creek Jottings

Our Sunday school secretary Mrs. Hugh Wilson has ordered more song books and we hope to make the song service both in the Sunday School and evening services more of a feature.

Paulette Waite had the misfortune to loose most of his ducks and his fine grey driving mare by a gopher poison.

Mr. J. A. Rawley and family and Miss Dunn of the Gleichen telephone office spent the last Sunday in April at the home of Mr. and Mrs. W. Phillips.

Mrs. E. Eberman is making farewell visits about here before leaving for her new home in Seattle.

Mr. Robinson and the Misses Walbeck of Calgary stopped with Miss L. Walbeck at the Gleichen. They stopped over and listened to a good sermon by Mr. Piper. Autoing home by moonlight.

## CRAIGANTLER

(Our own correspondent)

The seedling is almost finished in this district and everyone is looking forward to good results.

All are hoping that a good shower of rain will come soon to keep up the splendid start off.

done nothing towards the Patriotic Fund there are in Gleichen and district several families, dependents of soldiers, who are receiving support from the fund and it is our duty to help out the Patriotic Fund and enable the good work to be carried on during the duration of the war and longer if necessary.

As a duty it is up to the people of Gleichen to advertise among their friends in other parts of the country and ensure the success of the Stampede in every way possible.

A good many of our cowboy riders are now serving in various regiments of the Expeditionary Force; some of them are now in France but those who are still in the Province are expected to take a prominent part in the display and show their skill and daring, qualities which will make them useful on the battlefield in an outstanding degree, and a terror to the foe.

In many ways it will be a kharki stampede and as no other town is thinking of putting on a stampede Gleichen has an opportunity of making a name for itself throughout the Empire.

The dates fixed for the Stampede are the 24th and 25th of June. Don't forget to tell your friends. We have the goods and this is a display which is never likely to be equalled again anywhere in the world.

Mrs. Busby has left our district for some unknown destination. Good-bye, Ted. Sorry you went so quick.

Quite a large crowd attended the dance at Standard last week.

W. Knight had the misfortune to have his barn burned down last week. All the stock was saved.

Standard is becoming quite busy again. Some interesting settlers are already arriving.

We are pleased to learn that Mrs. Grant is improving nicely under Dr. Farquharson's care in Mrs. Little's hospital at Gleichen.

About two o'clock Tuesday morning the fire whistle brought nearly every person in town out of bed to learn that the fire had started in the stable at the rear of Mr. Bell's residence on Railroad Street. Although the fire had a good start the brigade done some excellent work and saved the residences of Mr. Bell, Mrs. Pollett and A. W. Bragg. Luckily undoubtedly would otherwise have been burned, thereby saving at a low estimate \$4000 worth of property and effects. The stable, a chicken pen and several small outbuildings were burned to the ground and the kitchen of Mr. Bell's house badly burned, while a lot of clothing and other things inside were consumed.

Once more we would say that chances for advertisements should be in this office by Monday noon.

## Talking Too Much

Did you ever stop to reflect that it is one thing to  
talk about people and another thing to have people talk  
about you? If those of us who use our tongues a little too  
freely, about our neighbors, would stop and reflect about  
this matter and know the great evil that comes from too  
much talking, we are sure we would call a halt and gossip  
no more.

## The Poor Editors.

There but few editors in the province who have not  
made a vigorous and continuous fight against the city  
mail order house. This has been done in the interest of  
the home merchant, and without money and without price.  
If editors of the land had received regular advertising  
rates for all they have said against these enemies of the  
country merchant they could now be wearing diamonds.  
Now the department store man appreciates advertising  
space and is willing to take all the average country editor  
has for sale, and at a good price. What other class of  
business or professional men would refuse to help their  
friends, especially as many of said friends never seem in  
the least disposed to return the compliment or even ap-  
preciate it.

## Mail Order House Failure

Many of our farmers, especially in the more pro-  
gressive communities in the west, are beginning to realize  
that their true interests are best served when they support  
their own country town. They have learned to resist the  
temptation of mail order catalogues and to give to their  
cash business instead to their own local stores.  
Not only their own experience, but more especially the  
experience of brother farmers in the United States, has  
taught them that the inevitable outcome of sending their  
cash orders away to mail order houses is the degeneration  
of their own country town, and the decrease in value of  
their own farm property.

Perhaps to the fact that our farmers are beginning  
to think along these lines, is due to the recent failure of  
the firm of Christie-Grant Company, Limited, Winnipeg,  
a mail order house that leaped like a flame into promi-  
nence for a few brief months. We understand that 222  
creditors attended the general meeting held some little  
while back and even this did not represent the total num-  
ber of creditors. It appears that it is the intention of the  
heaviest creditors, who were in a fair way to lose large  
sums of money over the venture, to continue the business  
until their accounts are paid. The spring catalogue which  
has been mailed out to a very large extent is expected to  
bring in business that will help to liquidate their losses.

If farmers are beginning to learn the lesson that  
they must support their country town in order to advance  
their own best interests, it is of very great importance that  
retail merchants should take immediate steps to offer to  
farmers a more efficient service than the best he has  
hitherto offered. If the country merchant is supported  
by the farmers cash business, as well as his credit business  
there is no reason why he should not produce a service  
equal to the best that any mail order house can offer, both  
as regards the price and quality of his goods.

Checked and rechecked so that they may be ab-  
solutely reliable, the crop reports of the Farmers' Co-op-  
erative Elevator Company may be unhesitatingly accepted  
by the country and those which this concern has kindly  
given out for publication reveal the fact that the acreage  
under cultivation in Alberta is 25 per cent greater than  
last year, that practically all the wheat and about 50 per  
cent of oats are seeded and that about half the wheat is  
out of the ground. The reports also tell the good news  
that conditions were never more satisfactory in Alberta  
than they are at the present moment.

## Buy an Irrigated Farm From The CANADIAN PACIFIC RAILWAY BECAUSE:

Irrigation makes the farmer independent of rainfall, and  
insures good crops, not occasionally, but every year.

Irrigation makes possible the successful culture of alfalfa,  
the king of feedstuffs, which insures best returns in dairying and mixed  
farming.

Irrigation means intensive farming and close settlement,  
with all the advantages of a densely populated agricultural com-  
munity.

Irrigation in the Canadian Pacific Railway Irrigation  
Block is no longer an experiment, the year 1914 having absolutely  
demonstrated its success wherever intelligently applied.

You can buy irrigated land from the Canadian Pacific  
Railway at prices ranging from \$75 to \$125 per acre, with twenty years  
to pay and the privilege of a loan of \$1,000.00 for improvements 5%  
interest; no principal payment at end of first or second years and no  
water rental for first year. Assistance is also given in supplying  
stock in approved instances.

This is the most liberal offer of irrigated farm land on  
record. Get full particulars from

# WHY THE CAMPAIGN MUST BE CONTINUED

Financial Reasons For Continuing the  
"Made-in-Canada" Movement—  
Dollars at Home

Here are financial reasons why the  
"Made-in-Canada" campaign must be  
continued:  
Imports into Canada, 1913, \$692,032,192  
Exports from Canada, 1913, \$282,287,097

Balance against us, \$409,745,095  
Interest on our borrowings, \$150,000,000  
Total settlement, 1913, \$559,745,095  
Paid by us in cash, \$448,800,000  
How do we fit? Very simple—we  
borrow \$100,000,000

Last year it was pretty much the  
same thing over again. So we had  
to borrow more. But (note this,  
please!) borrowing wasn't nearly so  
easy; we couldn't get nearly as much  
to borrow a dollar abroad. England  
and France need their money for  
other purposes.

What's to be done? For the honor  
of Canada, we mustn't fail in meeting  
our obligations, and there's still that  
\$100,000,000 of interest to pay!  
Turn it over carefully in your mind,  
and you'll soon be convinced there's  
only one possible way to meet the  
situation. We must import less and  
export more. In the words of Hon.  
Mr. White, Finance Minister, we must  
produce, produce, and keep on pro-  
ducing!

The more you think of it, the clear-  
er it becomes that now and always  
it has to be "Made-in-Canada!"

TEACH THE CHILDREN  
TO ASK FOR  
"MADE-IN-CANADA"  
GOODS

THE BEST EXAMPLE

How Our Greatest Canadian Corpora-  
tion Helps the "Made-in-Canada"  
Movement

The Toronto "Globe" had an article  
on January 26th describing the policy  
of the Canadian Pacific Railway with  
respect to the purchase of "Made-in-  
Canada" goods. While the "Globe"  
article refers particularly to the steel  
industry it is a well known fact that  
the C.P.R. has always been one of  
the most enthusiastic and consistent  
supporters of the purchase of their  
supplies wherever possible in Canada.

They know that by spending their  
money in Canada it will come back  
to Canadians and to them quicker.

Help Workmen

To quote the "Globe" article:  
"From the time the steel works at  
the Canadian Port started as a young  
industry to make steel rails, the Cana-  
dian Pacific Railway Company has  
been a consistent customer of that  
institution. It has bought rails on the  
same day of the line only when spec-  
ies were not available on the side, and,  
sometimes, has paid a higher price  
in the patronizing of home jobs."

But the C.P.R. looked at the  
proposition in this way: that by buy-  
ing steel rails from the Canadian Port  
it helped materially in the main-  
tenance of several hundred workmen,  
whose economic welfare, in turn,  
meant traffic to the railway which  
carried supplies of various kinds to  
their towns.

Agitation Is Necessary

In short, the purpose of the "Made-  
in-Canada" movement is to build in the  
commercial relationship which exists  
between the C.P.R. and the Canadian  
steel industry. Just now it is very  
necessary that every wholesaler and  
retail establishment through which  
the consuming public must purchase  
their supplies of food, clothing, and  
shelter should sell, in the largest  
measure possible, goods made in Can-  
ada. The Globe already has endeavor-  
ed to show that the salesman has a  
more practical part to play in the  
turnaround of home industry than  
the purchaser. If the wholesaler and  
retail dealer of the country would us-  
der take, in honor bound, to sell Cana-  
dian-made articles instead of those  
of foreign manufacture, wherever the  
former were available, and thus to  
develop the Canadian character of  
their stocks to the utmost, all the  
agitation urging the consuming public  
to buy "Made-in-Canada" goods would  
be unnecessary.

# IF YOUR BUILDING NEEDS PAINT PAINT NOW

PAINT, that is, good paint, is  
an investment, not an expense.

It protects the materials of which your house, barn, or other buildings are built,  
from the wear and tear of the weather. It improves their appearance and adds  
greatly to their market value.

When you buy paint by the best the market affords. There is no economy in  
sparing with a cheap paint. A good paint will last five years or more, and is  
therefore, much more economical than a cheap paint at \$1.50 per gallon that will  
only last for a couple of years. The former gives you protection at 50¢ a year per  
square foot, the latter costs you 75¢ a year per gallon and at the end of two years you  
have the whole expense of repainting the wearing of your buildings in a shabby  
unprotected condition.
